CAPTAIN

The Connected era's first LED luminaire for communal areas.

CAPTAIN is a new luminaire, born out of an eco-design policy, that offers innovative functions for lighting in hallways and circulation areas.

So much more than just a standard bulkhead fitting, CAPTAIN's elegant design, environmental characteristics, and remote management make it your perfect partner for managing your lighting installations in an efficient, environmentally-friendly way.

**Design: PM Design.**

ECO-DESIGNED:

Manufactured from recycled and recyclable plastics and factory-repairable, the Captain luminaire is reusable in an overall maintenance circuit and forms part of a circular economy policy aimed at extending useful life.

It is fitted with a high-performance, repairable LED system, with up to 2750 lm output and very low consumption of 130 lm/W, and lumen maintenance more than 72,000 hours in L80B10.

ONE-CLICK INSTALLATION:

Thanks to its plug-in mount, fixing and electrical connection can be performed during building work with no fear of damaging the luminaire itself. The luminaire can then be locked onto its mount with a single click at the end of the project, saving precious time in both installation and maintenance.

Innovative, elegant appearance with no visible screws!

And because everyone is concerned for the environment, its light unit can be dismantled and repaired, without needing to replace the luminaire as a whole. This extends its useful life and allows technical evolution.

Its recycled polycarbonate mount is part of a circular economy policy, and its reinforced construction offering IK10 impact resistance, protected by an invisible secure closure, make this a very durable luminaire.

Its LED module, its detector, and its communication system are designed, developed, and manufactured in France and carry the Origine France Garantie label — the only quality mark that truly guarantees local manufacturing and that our suppliers and subcontractors too are in France..

CAPTAIN, like all new SECURLITE products, has been certified Origine France Garantie by an external control office, thus attesting to the French manufacture of the product.
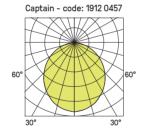

CAPTAIN

VK25 · IK10/20J · IP55 · 850°

FEATURES

- Low-consumption architectural luminaire
- Mount, base, bezel made from recycled polycarbonate
- High-performance polycarbonate diffuser
- Captive, non-visible stainless steel vandal-resistant fixings
- Standby consumption: Captain consumes less than 0.5 W in standby
- Lumen maintenance: L80B10 / over 72,000 hours

OPTIONS AVAILABLE ON REQUEST

- LED 3000 K

- Vandal-resistant tool (bit) to be ordered separately code: 9800 0003

Captain - code: 1912 0457
