

MARKLED 4 LIGHT MODULE WITH STRANDS 2X0,5MM², 20CM, 30MA / DOUBLE SIDED 4X WHITE, 5'600K

ITEM NO. 860567

DETAILS

- cable-guiding system with current carried through direct connections
- nano coated, dirt-repellent
- within the limits for electromagnetic compatibility (EMC)
- state-of-the-art LED technology
- high energy efficiency, the power consumption is extremely low
- we are able to meet the regulations set forth by the German Federal Highway Research Institute (BAST-Germany) which also apply to us and other countries

TECHNICAL DATA

Item no.:	860567
Guidance system type:	MarkLED
Light colour:	white
Colour temperature:	5300 K
Luminosity:	50 cd
Power consumption:	30mA
Property to may drive over:	to 5t (slow traffic with air-filled tyres)
Temperature resistance:	-40°C to +55°C
Protection class:	III
Protection rating :	IP68
Height :	18.00 mm
Diameter:	110.00 mm
Height over road surface level:	20.00 mm
Material upper part:	Polycarbonate nano coadet
Colour upper part:	transparent
