

Single Pole Connector for the Earth-Rite® MULTIPOINT II

Single Pole Connectors for Earth-Rite MULTIPOINT II

The Earth-Rite MULTIPOINT II's single pole connectors provide a flexible means of connecting and disconnecting Earth-Rite MULTIPOINT II systems to a range of plant equipment being monitored for static grounding protection purposes.

The bayonet press fit design of the connectors means that items of equipment regularly disassembled for cleaning and maintenance, or frequently moved around the plant, can be quickly connected to, or disconnected from, the Earth-Rite MULTIPOINT II system.

Description Female connector (crimped to single core cable)

Dimensions 28 mm (overall length) x 20 mm (outer diameter)
Single core cable dimensions Ø4 mm to Ø5.9 mm

Material Nickel plated brass

Description Male connector (fitted to monitored plant equipment)

Dimensions Thread: M6 X 18 mm (35 mm overall length)

Material Nickel plated brass

Description Panel mount socket with insulating plastic cover

Dimensions 40 mm (overall length) x 23.5 mm (outer diameter)

Material Nickel plated brass
